

UPMC Children's Hospital of Pittsburgh - EHR Record

Generation Date: March 07, 2025

Patient ID: 123456789 (MA ID #)

1. Patient Information

Name: Amy Smith

Date of Birth (DOB): 2018-05-15

Age: 6 years (as of evaluation on 2023-10-01)

Gender: Female

Medical Assistance ID (MA ID #): 123456789

Address: 123 Main St, Pittsburgh, PA 15201

Contact: 555-123-4567

Guardian: Jane Smith (Mother)

Emergency Contact: Jane Smith, 555-123-4567

2. Medical and Social History

Allergies: No Known Allergies (NKA)

Past Medical History:

- Premature birth at 34 weeks, birth weight 4 lbs 8 oz
- Ear infections during infancy (2020, resolved)

Surgical History: None

Immunization Record:

- DTaP: Completed (2018-07-15, 2018-09-15, 2018-11-15, 2020-05-15)
- MMR: Completed (2019-05-20, 2020-05-15)

- Varicella: Completed (2019-05-20)
- Hep B: Completed (2018-05-16, 2018-07-15, 2018-11-15)

Family Medical History:

- Mother: Mild anxiety disorder (managed with medication)
- Father: No known chronic illnesses
- Maternal Grandmother: Type 2 Diabetes

Social History:

- Living situation: Lives with parents, no siblings
- School: Pittsburgh Public School Kindergarten
- Primary caregiver: Mother, Jane Smith (Full-time mother)

3. Chief Complaint

Date Recorded: 2023-10-01

Chief Complaint:

- Parental report: Aggressive behaviors (hitting, throwing), social difficulties, and language delays at school and home.
- Teacher feedback: Unable to interact with peers, frequent solitary play, stereotypic behaviors (body rocking).

4. Clinical Assessment

Assessment Date: 2023-10-01

Evaluating Doctor: John Doe, PhD (Pediatric Psychologist)

License Type: Licensed Psychologist

NPI #: 987654321

PROMISE ID #: 12345

Assessment Tools:

- ADOS-2 (Autism Diagnostic Observation Schedule, 2nd Edition)

- Vineland-3 (Adaptive Behavior Scales)
- Parental interview and behavior observation

Findings:

- Social Interaction: Lack of eye contact, avoidance of peers, unable to engage in cooperative play.
- Communication: Limited language use, single-word expressions (e.g., "water"), inability to express complex needs.
- Behaviors: Frequent body rocking (~20 times/day, 1-2 mins each), sensitive to changes (screaming resistance).
- Development: Language and social skills below age-level, indicative of Global Developmental Delay.

Assessment Summary:

- ADOS-2 score: 18 (severe range, ASD confirmed).
- Vineland-3: Severe deficits in social and communication domains.

5. Diagnoses

Behavioral Health (DSM-5, ICD-10):

- Autism Spectrum Disorder (ASD) - F84.0 (social interaction impairments, repetitive behaviors, language delay)
- Disruptive Behavior Disorder - F91.1 (aggression, emotional outbursts)

Medical Diagnoses:

- Global Developmental Delay (GDD) - F88 (below-expected language, social, cognitive skills)
- Specific Language Impairment - F80.9 (limited expressive and receptive language)

6. Physical Examination

Date: 2023-09-28 (Routine pre-assessment)

Height: 42 inches (107 cm)

Weight: 45 lbs (20.4 kg)

BMI: 18.1 (normal range)

Vitals:

- Heart Rate: 82 bpm
- Respirations: 16 breaths/min
- Temperature: 98.6°F (37°C)

Neurological: No abnormalities noted

Remarks: Generally healthy, no acute illness.

7. IBHS Information

Assessment Date: 2023-10-01

Doctor's Notes:

Face-to-face evaluation conducted with Amy and mother Jane Smith on 2023-10-01. Lower-intensity interventions (weekly outpatient behavioral therapy) considered insufficient due to severe symptoms (aggression, social isolation); IBHS recommended.

Medical Necessity:

Severe impact of ASD and disruptive behaviors on daily functioning (school adjustment, family relationships); intensive intervention required.

Treatment Goals:

- Social skills: Increase successful peer interactions (eye contact, sharing) by 2 instances/week.
- Communication: Learn 5 new words/phrases for expressing needs.
- Repetitive behaviors: Reduce stereotypic behaviors by 50%.

Recommended Services:

- IBHS Individual Services:
 - Behavioral Consultant (BC-ABA): up to 18 hours/month
 - Behavior Health Technician (BHT-ABA): up to 70 hours/month
 - Behavioral Analytic Services (BCBA): up to 6 hours/month

Settings: Home, School, Community

Additional Recommendations:

- Further evaluation via Intermediate Unit.
- Twice-weekly speech therapy.
- ABA training for parent engagement to ensure skill generalization.

8. Other Medical Records

Lab Tests:

- Date: 2023-09-28
- CBC: Normal
- Lead screening: < 5 µg/dL (normal)

Imaging: Not required

Medications: None prescribed

Referrals:

- Speech Therapist: Referred on 2023-10-05, UPMC Children's Hospital Speech-Language Pathology (412-692-5580).

9. Parental Communication

Date: 2023-10-01

Content:

- Explained ASD diagnosis and IBHS necessity to Jane Smith.
- Provided resources: "Parenting the Strong-Willed Child," "Could It Be Autism."
- Recommended contacting Community Care Customer Service: Allegheny 1-800-553-7499.

Parent Feedback:

- Jane understood and agreed with IBHS plan; expressed concern about Amy's school adaptation.

10. Doctor's Signature & Certification

Signed: John Doe, PhD

Date: 2023-10-01

Note: "This record is electronically signed in compliance with HIPAA."
